	Paper Title:	Enhancing EVIEW Programming Development in Economic Practice Classrooms 4.0 through a Deviation from Proportional Growth (DPG) Analysis	
	Abstract: Enhancing Eview program development as well as extended programs in economic analysis in the 21st century is extremely necessary for university students during practical business lessons. Furthermore, Eview program development will help students apply their theoretical knowledge to make inferences based on logic and trends from given sets of data as well as complete their course project. This article conducts extensive program analysis of Eview software to help students gain the ability to aggregate and analyze big data to meet the extremely diverse economic development seen nowadays. The article builds a specific segment program based on DPG analysis for a case of four developed countries and builds up 32 specific steps for students to complete all stages from theory to practice. It also examines student feedback on their experience in learning in the economic practice classrooms 4.0 at 32 Business school in Vietnam.

	Abstract: Application of information technology in government institution, including the departments where this case study was conducted, is an attempt to improve the transparency and quality of internal and external services. The employment of information technology aims to support the vision, mission and goals of the organization with good governance. Good governance management requires an audit to determine if the organization's performance is in accordance with the designated goals, vision and mission. The audit procedure performed by COBIT 5 which starts with identifying the work indicators listed in the Regional Medium-Term Development Plan (RMDP), identification of business objectives, identification of IT objectives, IT processes, data collection through questionnaires. Results of audit, showed that the capability level of five IT processes were within low value level, namely APO04 at level 1, APO07 at level 1, BAI01 at level 2, APO08 at level 2, and		

EDM05 at level 1. These results were indicating a presence of GAPS between expected organizational achievements and the current situation. By employing several best practice standards, this audit established several recommendations to improve maturity level including alignment between business objectives and IT objectives as well as IT processes.

Paper Title: Anti-Seismic Bracing in a Hollow-Core Slab of Formwork-Free Shaping for The Possibility of Creating a Rigid Disk in a Building Floor Slab

Abstract: Building codes and regulations for construction in seismic regions of many countries (including Uzbekistan) require that the floors slabs and elements of a building should possess resistance to seismic impacts, have such functions that not only distribute seismic load between the supporting elements of the building (walls, crossbars and frame columns), but also ensure the spatial operation of the building as a result of reliable bracing of these elements. Therefore, floor slabs made of reinforced concrete prefabricated elements must present rigid horizontal diaphragms (disks) that uniformly distribute seismic loads between load-bearing structures. To fulfill the above requirements, the building standards of Uzbekistan KMK 2.01.03-96 "Construction in seismic areas" oblige designers to provide the strength and rigidity of floors slabs of buildings (structures) by installation the anti-seismic bracings in inter-slab joints between the side surfaces of adjacent slabs; between the end supporting sections of slabs and the frame elements or the anti-seismic belts of stone buildings. The same standards require the presence of free lengths of reinforcement bars or concrete inserts at the ends of slabs for connecting floor slabs with each other and with an anti-seismic belt (or a framing beam); these requirements apply to the production of floor slabs using the aggregate-flow technology. An installation of bracing elements for hollow-core slabs of formwork-free shaping with adjacent structures is not provided since the slabs of a set length are fabricated on a production line by cutting a molded monolithic tape on the line. In this regard, hollow-core slabs of formwork-free shaping must have anti-seismic joint units that provide the bearing capacity of building structures of various systems at the stages of their life cycle. Typical solutions of such units for hollow-core slabs of formwork-free shaping have not been developed. An anchor node with a unit in the void at the end section of the slab has been developed for the anti-seismic bracing of a hollow-core floor slab of formwork-free shaping with adjacent building structures (through a seismic belt or a framing beam). For anti-seismic bracing in inter-slab joints between the lateral surfaces of adjacent floor slabs, a constructive solution is proposed for the cross section of a hollow-core slab of formwork-free shaping with a widened lower flange relative to the upper flange to install a reinforced

Assistant Professor, Department of Computer Science, Alagappa Government Arts College, Karaikudi (Tamil Nadu), India.

Dr. Ramarao.M

Associate Professor, Department of Mechanical Engineering, Brilliant Institute of Engineering & Amp Technology Abdullapur (V), Hayathnagar, Hyderabad, India.

Dr. Mayanka Sharma

Professor and Head of Research Center, Sai Balaji International Institute of Management Sciences, Pune (Maharashtra), India.

Dr. T. Venkat Narayana Rao

Professor, Department of Computer Science and Engineering, Sreenidhi Institute of Science & Technology, Hyderabad (Telangana), India.

Dr. Vinay Dwivedi

Professor, Department of Biotechnology, Naraina Group of Institution, Kanpur (U.P), India.

Dr. Priya Makhija

Associate Professor, Department of Commerce and Management, CMS-Jain University, Bangalore (Karnataka), India.

Dr. Dharmesh Kumar Srivastava

Associate Professor & Head, Department of Electronic Engineering, S.R. Institute of Management and Technology, Lucknow (U.P), India.

Dr. Vijay Kumar Sinha

Professor, Department of Computer Science & Engineering, Chandigarh Engineering College, Landran, Mohali (Punjab), India.

Dr. Ganesh Babu Katam

Faculty, Department of Mechanical Engineering, National Institute of Technology, Andhra Pradesh, Tadepalligudem (A.P), India.

Dr. N. Chitradevi

Assistant Professor, Department of Management, School of Management Hindustan University, Chennai (Tamil Nadu), India.

Dr. P. Sriramakrishnan

Assistant Professor, Department of Computer Applications, Kalasalingam Academy of Research and Education (Deemed to be University), Krishnankoil, Virudhunagar, (Tamil Nadu), India.

Dr. S. Ramkumar

Associate Professor, School of Computing, Department of Computer Applications, Kalasalingam Academy of Research and Education, Krishnankoil, Sirivilliputhur, (Tamil Nadu), India.

Dr. Rohit Bansal

Assistant Professor, Department of Management Studies, Vaish College of Engineering, Rohtak (Haryana), India.

Dr. Selvakumar R

Assistant Professor, Department of Electronics and Communication Engineering, Koneru Lakshmaiah Education Foundation, Vijayawada (A.P), India.

Dr. T. Velumani

Assistant Professor, Department of Computer Science, Kongu Arts and Science College(Autonomous), Erode (Tamil Nadu), India.

Dr. Ramachandra C. G

Professor, Department of Mechanical Engineering, School of Engineering Presidency University, Itgalpur, Rajanakunte, Bengaluru(Karnataka), India.

Dr. Vishnu Narayan Mishra

Associate Professor & Head, Department of Mathematics, Indira Gandhi National Tribal University, Lalpur, Amarkantak (Madhya Pradesh), India.

Dr. B. Gopinath

Professor, Department of Electrical and Electronics Engineering, Vivekanandha College of Technology for Women, Tiruchengode, Salem (Tamil Nadu), India.

Dr. Ho Soon Min

Associate Professor, Department of Chemistry, INTI International University, Jln BBN 12/1, Bandar Baru Nilai, 71800 Negeri Sembilan, Malaysia.

Dr. K.V.L.N. Acharyulu

Associate Professor, Department of Mathematics, Bapatla Engineering College, Bapatla, Guntur (A.P), India.

Dr. P. Uma

Faculty of Management Studies, Founder , Unique Research & Consultancy Services, Madurai (Tamil Nadu), India.

Dr. Chandan Medatwal

Assistant Professor, OB HR and Soft Skills, NIIT University, NH-8, Neemrana, Alwar (Rajasthan), India.

Dr. B. S. Sathish

Professor, Department of Electronics and Communication Engineering, Ramachandra College of Engineering, Vatluuru (Andhra Pradesh), India.

Dr. Mehul Patel

Assistant Professor, Department of ACRIL, C P Patel & F H Shah Commerce College, Anand (Gujarat), India.

Dr. Yuriy Pyvovar

Professor, Head of Department, National Aviation University, Kyiv, Ukraine, Europe.

Dr. Saikat Gochhait

Sr. Assistant Professor, Department of Business Management, National Dong Hwa University, Taiwan.

Dr. Abhishek Das

Associate Professor and Head, Department of Computer Science Engineering, Aliah University, Kolkata, (West Bengal), India.

Dr. Umesh Sehgal

Associate Professor, Department of Computational Science, GNA University, Sri Hargobindgarh (Punjab), India.

Dr. Ayush Dogra

Senior Research, Department of Electronics and Communication Engineering, University Institute of Engineering and Technology, Panjab University (Punjab), India.

Dr. Sameer Babu M

Assistant Professor, Department of Education, University of Kerala, Trivandrum (Kerala), India.

Dr. B. Ramesh

Professor & Head, Department of Mechanical Engineering, Sri Muthukumaran Institute of Technology Chikkarayapuram Chennai (Tamil Nadu), India.

Dr. Nehru Kandasamy

Research Fellow, Department of Electrical and Computer Engineering, National University of Singapore, Singapore.

Dr. Ali Atef Masria

Assistant Professor, Department of Civil Engineering, College of Engineering, Jouf University, Kingdom of Saudi Arabia.

Dr. Sadashiv S. Mugali

Assistant Professor, Department of History, Rani Channamma University, Belagavi (Karnataka), India.

Dr. Pokkuluri Kiran Sree

Professor, Department of Computer Science and Engineering, Shri Vishnu Engineering College for Women Autonomous, Bhimavaram (Andhra Pradesh), India.

Dr. Sreejith Vignesh B.P

Associate Professor and Head, Department of Management Studies, J.K.K. Nattraja Educational Institutions, Natarajapuram, Komarapalayam (Tamil Nadu), India.

Dr. Prathyusha Kuncha

Associate Professor and Head, Department of Electronics and Communication Engineering, Nri Institute of Technology, Pothavarappadu, Krishna, Vijayawada (A.P), India.

Dr. Mohankumar Namdeorao Bajad

Professor, Department of Civil Engineering, Sinhgad College of Engineering, Vadgaon (Budruk), Pune (Maharashtra), India.

Dr. P. Timothy

Associate Professor & Head, Department of Mechanical Engineering, Miracle Educational Society Group of Institutions Bhogapuram, Vizianagaram (A.P), India.

Dr. M V Bramhananda Reddy

Principal, Department of Computer Science & Engineering, Sai Rajeswari Institute of Technology, JNTUA, Anantapur (Andhra Pradesh), India.

Dr. Hao Yi

Assistant Professor, Department of Mechanical Engineering, Chongqing University, China.

Dr. M.Rajmal Joshi

Associate Professor, Department of Electrical and Electronics Engineering, Panimalar Engineering College, Chennai (Tamil Nadu), India.

Dr. S. Hemalatha

Associate Professor, Department of Commerce, AMET University, Kanathur (Tamil Nadu), India.

Dr. Nageswara Rao Moparthy

Professor, Department of Computer Science and Engineering, K L University, Vaddeswaram, (Andhra Pradesh), India.

Dr. Jami Venkata Suman

Assistant Professor, Department of Electronics & Communication Engineering, GMR Institute of Technology, Razam (Andhra Pradesh), India.

Dr. M. Navaneetha Krishnan

Vice Principal and Head, Department of Computer Science and Engineering, St. Joseph College of Engineering, Chennai (Tamil Nadu), India.

Dr. Ajay B Gadicha

Assistant Professor, Department of Computer Science and Engineering, P. R. Pote College of Engineering and Management, Amravati (Maharashtra), India.

Dr. S. Thanigaivel

Assistant Professor, Department of Biotechnology, Saveetha Institute of Medical and Technical Sciences (Saveetha University) Kuthambakkam (Tamil Nadu), India.

Dr. P. Rahul Reddy

Associate Professor, Department of Electronics and Communication Engineering, Geethanjali Institute of Science and Technology Gangavaram, Nellore (Andhra Pradesh), India.

Dr. K. Hussain

Associate Professor and Head, Department of Electrical Engineering, Sharad Institute of Technology, College of Engineering, Yadrav (Maharashtra), India.

Dr. Satish Geeri

Associate Professor, Department of Mechanical Engineering, Pragati Engineering College, Surampalem (Andhra Pradesh), India.

Dr. Aqueel Ahmed A. Jalil

Principal, Department of Mechanical Engineering, Radhai Mahavidyalaya, Aurangabad (Maharashtra), India.

Dr. K. Sathiyasekar

Professor, Department of Electronics & Electrical Engineering, Prathyusha Engineering College, Chennai (Tamil Nadu), India.

Dr. A Kishore Reddy

Associate Professor, Department of Electronics and Communication Engineering, Geetanjali Institute of Science and Technology, Gangavaram, Nellore (Tamil Nadu), India.

Dr. Omid A. Yamini

Professor, Department of Civil Engineering, K. N. Toosi University of Technology, Vali Asr Street, Mirdamad Intersection, Tehran, Iran.

Dr. Atul Kumar

Associate Professor, Department of Computer Science and Engineering, Shri Ram Swaroop Memorial Group of Professional Colleges Luknow (U.P), India.

Dr. C. Vijai

Assistant Professor, Department of Commerce, St.Peter's Institute of Higher Education and Research, Avadi, Chennai (Tamil Nadu), India.

Dr. B. Vinoth

Assistant Professor and Head, Department of Mechanical Engineering, Mangayarkarasi College of Engineering, Madurai (Tamil Nadu), India.

Dr. M Vara Prasad Rao

Professor, Department of Computer Science and Engineering, CMR Technical Campus (Autonomous) Hyderabad (Telangana), India.

Dr. Manoj Sharma

Assistant Professor and Head, Department of Mathematics, Rustamji Institute of Technology, BSF Academy Tekanpur, Gwalior (M.P), India.

Dr. S. Balaji

Assistant Professor, Department of Computer Science and Engineering, Panimalar Engineering College, Chennai (Tamil Nadu), India.

Dr. M. R. Arun

Professor, Department of Computer Applications, PSG College of Technology, Peelamedu, Coimbatore (Tamil Nadu), India.

Dr. V.D.N. Kumar Abbaraju

Assistant Professor, Department of Chemistry, Gitam Institute of Technology Gitam University Visakhapatnam (A.P), India.

Dr. Mallikarjuna Reddy Doodipala

Professor, Department of Mathematics, GITAM University-Hyderabad Campus Rudraram Village, Patan Cheru Mandal Medak Hyderabad (Telangana), India.

Dr. B. Venkata Prasanth

Professor and Principal, Department of Electronics & Electrical Engineering, Sree Dattha Group of Institutions, Sheriguda (Telangana), India.

Dr. C. Gokul

Associate Professor, Department of Electronics & Electrical Engineering, Velalar College of Engineering and Technology, Erode (Tamil Nadu), India.

Dr. Lakshmi Narayana Thalluri

Assistant Professor, Department of Electrical Communication Engineering, Andhra Loyola Institute of Engineering and Technology, Vijayawada (A.P), India.

Dr. Kshirod Sarmah

Assistant Professor & HOD, Department of Computer Science, Pandit Deendayal Upadhaya Adarsha Mahavidyalaya, Amjonga, Goalpara (Assam), India.

Dr. Ramu Nagarajapillai

Professor, Department of Commerce, Annamalai University Chidambaram (Tamil Nadu), India.

Dr. Anand Kishore Kola

Professor, Department of Chemical Engineering, National Institute of Technology, Warangal (Telangana), India.

Dr. Shrikant M. Harle

Assistant Professor, Department of Civil Engineering, Prof Ram Meghe College of Engineering & Management, Amravati (Maharashtra), India.

Dr. T. Phani Madhavi

Associate Professor & Head, Department of Civil Engineering, Narasaraopeta Engineering College (Autonomous) Narasaraopet, Guntur (A.P), India.

Dr. B. Anil Kumar

Associate Professor, Department of Electronics & Communication Engineering, Gokaraju Rangaraju Institute of Engineering & Technology (Autonomous), Hyderabad (Telangana), India.

Dr. Ashish Karn

Assistant Professor, Department of Mechanical Engineering, University of Petroleum and Energy Studies Bidholi, Dehradun (Uttarakhand), India.

Dr. Umesh Gupta

Associate Professor, Department of Mechanical Engineering, Vaish College of Engineering, Rohtak, (Haryana), India.

Dr. R.G.D' Souza

Professor & Principal, Department of Civil Engineering, Yenepoya Institute of Technology Mijar, Thodar Moodbidri (Karnataka), India.

Dr. Shekhar R

Associate Professor, Department of Computer Science & Engineering, Alliance college of Engineering and Design, Alliance University, Bangalore (Karnataka), India.

Dr. M. Kavitha

Associate Professor, Department of Mathematics, KPR Institute of Engineering and Technology, Coimbatore (Tamil Nadu), India.

Dr. G. K. Awari

Professor & Head, Department of Automobile Engineering, Government Polytechnic, Nagpur, (Maharashtra), India.

Dr. K. S. Meenakshisundaram

Former Director, Crescent School of Business, Crescent University, Chennai (Tamil Nadu), India.

Dr. Karthikeyan Parthasarathy

Assistant Professor, School of Management Studies, Kongu Engineering College Erode (Tamil Nadu), India.

Dr. Ramani Kannan

Senior Lecturer, Department of Electrical and Electronics Engineering, Center for Smart Grid Energy Research, Institute of Autonomous system. Universiti Teknologi PETRONAS (UTP), Malaysia.

Dr. Somnath Thigale

Assistant Professor, Department of Computer Science and Engineering, SKN Sinhgad COE Korti-Pandharpur (Maharashtra), India.

Dr. Giriraj Kumar Prajapati

Professor, Department of Electronics Communication Engineering, Sree Chaitanya Institute of Technological Sciences, Karimnagar (Telangana), India.

Dr. M. Madhiarasan

Assistant Professor, Department of Electrical and Electronics Engineering, Bharat Institute of Engineering and Technology, Hyderabad, (Telangana), India.

Dr. R. K. Bathla

Professor, Department of Computer Science & Engineering, Madhav University, Rajasthan, India.

Dr. G. Venkata Rama Subbarao

Associate Professor, Department of Civil Engineering, Velagapudi Ramakrishna Siddhartha Engineering College, Kanuru, Vijayawada (Andhra Pradesh), India.

Dr. Vijay Kumar Sinha

Associate Professor, Department of Computer Science & Engineering, Chandigarh Engineering College, Landran, Mohal (Punjab), India.

Dr. T. Muthumanickam

Professor and Head, Department of Electronics and Communication Engineering, Vinayaka Mission's Kirupananda Variyar Engineering College, Periyaseeragapadi (Tamil Nadu), India.

Dr. Suneel Kumar Singh

Associate Professor & Controller of Examination & Nodal Officer, Red Ribbon Club, Department of Science Modern Institute of Technology Dhalwala, Rishikesh (Uttarakhand), India.

Dr. M. Vamshi Krishna

Associate Dean SOET & H.O.D, Department of Electronics & Communication Engineering, Centurion University of Technology & Management Paralakhemundi, Odisha, India.

Dr. R. Padmavathi

Assistant Professor, Department of Chemistry, Sree Sastha Institute of Engineering and Technology, Chennai (Tamil Nadu), India.

Dr. B. Kavitha Rani

Professor, Department of Computer Science & Engineering, CMR Technical Campus Kandlakoya (V), Medchal (M), Hyderabad (Telangana), India.

Dr. Srinivas Konda

Professor, Department of Computer Science & Engineering, CMR Technical Campus Kandlakoya (V), Medchal (M), Hyderabad (Telangana), India.

Dr. Keyur D. Bhatt

Professor & Head, Department of Chemistry, Mehsana Urban Institute of Sciences, Ganpat University, Kherva (Gujarat), India

Dr. Appala Srinivasu Mutipati

Associate Professor, Department of Computer Science and Engineering, Raghu Institute of Technology, Dakamarri, Visakhapatnam (A.P.), India

Dr. Froilan D. Mobo

Associate Professor, Designated Assistant Unit Head for General Education Unit, Philippine Merchant Marine Academy, San Narciso, Zambales

Dr. Jaya Christiyan K.G

Professor, Department of Mechanical Engineering, Ramaiah Institute of Technology, Bangalore (Karnataka), India

Dr. Dipti Ranjan Malik

Assistant Professor, Department of Sociology, NIMS University, Jaipur (Rajasthan), India

Dr. Vijaya Lakshmi Pothuraju

Associate Professor, Department of MBA, CMR College of Engineering & Technology, (Autonomous) Kandlakoya, Hyderabad, India

Dr. Ahmmmed S. Ibrehem

Assistant Professor, Department of Chemical Engineering, Dhofar University, Salalah, Oman

Dr. K. G. Durga Prasad

Professor & Head, Department of Mechanical Engineering, Technical Campus, GVP College for Degree & P.G.Courses, Rushikonda, Visakhapatnam (Andhra Pradesh), India

Dr. Sucheta Ghorai Giri

Assistant Professor, Department of Microbiology, Parul Institute of Applied Sciences, Parul University, Limda, Vadodara (Gujarat), India

Dr. K. Narendra Kumar

Associate Professor, Department of Computer Science & Engineering, Chalapathi Institute of Engineering and Technology, Lam, (Andhra Pradesh), India

Dr. B. Suresh Babu

Professor, Department of Electrical & Electronics Engineering, Shri Vishnu Engineering College for Women Vishnupur, Bhimavaram (Andhra Pradesh), India

Dr. A. Akila

Assistant Professor, Department of Computer Engineering, Vels Institute of Science, Technology & Advanced Sciences, Pallavaram, Chennai (Tamil Nadu), India

Dr. R. Parameswari

Associate Professor, Department of Computer Engineering, Vels Institute of Science, Technology & Advanced Sciences, Pallavaram, Chennai (Tamil Nadu), India

Dr. Dipak Gade

Program Manager, Department of Computer Engineering, IGATE Solutions Ltd., Pune (Maharashtra), India

Dr. K. Mohan Das

Professor & Head, Department of Civil Engineering, Ashoka Institute of Engineering and Technology, Hyderabad (Telangana), India

Dr. Hitesh V. Paghadar

Associate Professor, Department of Electrical Engineering, OM Engineering College, Chokli (Gujarat), India

Dr. P. Prathap

Professor, Department of Mechanical Engineering, Hindusthan Institute of Technology, Malumichampatty (Tamil Nadu), India

Dr. A. V. Senthil Kumar

Director, Department of Masters in Computer Application, Hindusthan College of Arts and Science, Coimbatore (Tamil Nadu), India

Dr. Rishi Kumar

Assistant Professor, Department of Science, Guru Nanak College, Budhlada (Punjab), India

Dr. Surya Nagendra Pentakota

Associate Professor, Department of Mechanical Engineering, Nadimpalli Satyanarayana Raju Institute of Technology, Visakhapatna, (Andhra Pradesh), India

Dr. Santanu Koley

Associate Professor, Department of Computer Science and Engineering, Budge Budge Institute of Technology, Nischinta Pur, (West Bengal), India

Dr. Madhuri C. Hingane

Assistant Professor, Department of Computer Science, Pune District Education Association's College of Engineering, Pune (Maharashtra), India

Dr. M. M. Bagali

Professor and Head, Department of MBA, Acharya Institute of Technology, Bangalore (Karnataka), India

Dr. Mayank Jain

Professor, Department of Electronics and Communication Engineering, Sri Indu College of Engineering & Technology, Sheriguda (Telangana), India

Dr. Sharanappa Chapi

Assistant Professor, Department of Physics, K.L.E. Society's J.T. College, Gadag-Betgeri, (Karnataka), India

Dr. A. Vamshi Krishna Reddy

Lecturer, Centre for Environment, Institute of Science & Technology, Jawaharlal Nehru Technological University, Hyderabad (Telangana), India

Dr. Amit Bindaj Karpurapu

Professor, Department of Electronics and Communication Engineering, Swarna Bharathi Institute of Science and Technology (SBIT), Khammam (Telangana), India

Dr. Atul Ramdas Kolhe

Associate Professor, Department of Civil Engineering, Dr. D Y Patil Institute of Engineering Management & Research, Pimpri-Chinchwad (Maharashtra), India

Dr. B. Bazeer Ahamed

Associate Professor, Department of Computer Science and Engineering, Balaji Institute of Technology & Science, Laknepally (Telangana), India

Dr. C. Arunabala

Professor, Department of Electronics and Communication Engineering, KITS (KKR & KSR Institute of Technology & Sciences) Vinjanampadu, Vatticherukuru Mandal, Guntur (Andhra Pradesh), India

Dr. A. Swarupa Rani

Associate Professor, Department of Computer Science, Siddharth institute of Engineering & Technology, Narayanavanam (Andhra Pradesh), India

Dr. S. A. Mohan Krishna

Associate Professor, Department of Information Science and Engineering, Vidyavardhaka College of Engineering, Mysuru (Karnataka), India

Dr. Ashok Koujalagi

Assistant Professor & Postdoctoral Researcher, Department of Computer Science, Basaveshwar Science College, Bagalkot (Karnataka), India

Dr. A. Baradeswaran

Principal, Department of Electronics & Communication Engineering, Madha Engineering College, Chennai (Tamil Nadu), India

Dr. R. Padma Priya

Professor, Department of Electronics & Communication Engineering, Madha Engineering College, Chennai (Tamil Nadu), India

Dr. Raghunath Satpathy

Assistant Professor, Department of Biotechnology, Majhighariani Institute of Technology and Science, Odisha, India

Dr. Hema Chandran K.

Professor & HOD, Department of Electronics & Communication Engineering, Ashoka Institute of Engineering and Technology, Hyderabad (Telangana), India

Dr. M. Rakesh

Assistant Professor, Department of Electronics and Communication Engineering, Vignan's Institute of Management and Technology for Women, Ghatkeser (Hyderabad), India

Dr. Parul Mishra

Assistant Professor, Department of English, GD Goenka University Gurugram, Gurgaon (Haryana), India

Dr. Sunil Kumar Mishra

Associate Professor, Department of Communication Skills (English), Amity University, Gurgaon (Haryana), India

Dr. Kaushik Mukherjee

Faculty of Management Studies, Assistant Professor, AKS University, Satna(MP), India

Dr. Siva Reddy Sheri

Associate Professor, Department of Mathematics, School of Technology Hyderabad Campus, GITAM University, Visakhapatnam (Andhra Pradesh), India.

Dr. Nitasha Soni

Assistant Professor, Department of Computer Science, Manav Rachna International Institute of Research and Studies, Faridabad (Haryana), India.

Dr. Pushpender Sarao

Professor, Department of Computer Science & Engineering, Hyderabad Institute of Technology and Management, Hyderabad (Telangana), India.

Dr. K. Priya

Professor & Head, Department of Commerce, Vivekanandha College of Arts & Sciences for Women (Autonomous, Elayampalayam, Namakkal (Tamil Nadu), India.

Dr. Sunil Tekale

Professor, Dean Academics, Department of Computer Science & Engineering, Malla Reddy College of Engineering, Secunderabad (Telangana), India.

Dr. Brijesh Singh

Senior Yoga Expert and Head, Department of Yoga, Samutakarsha Academy of Yoga, Music & Holistic Living, Prahladnagar, Ahmedabad (Gujarat), India.

Dr. Vinita Kumar

Department of Physics, Dr. D. Ram D A V Public School, Danapur, Patna(Bihar), India

Dr. Rama Shanker

Professor & Head, Department of Statistics, Eritrea Institute of Technology, Asmara, Eritrea

Dr. Subhash Laxman Gadhane

Professor, Department of Mechanical Engineering, Shri Jagdishprasad Jhabarmal Tibrewala University, (Rajasthan) India.

Dr. Raja Mohammad Latif

Professor, Department of Mathematics and Natural Sciences, University of Alberta Edmonton, Canada.

Dr. S.N. Ramaswamy

Professor, Department of Civil Engineering, Kalasalingam University, (Krishnankoil) India.

Dr. G.Mallesha

Professor, Department of Mechanical Engineering, VTU, (Karnataka) India

Dr. G.Kiruthiga

Professor, Department of Computer Science and Engineering, Karpagam Academy of Higher Education, (Chitalappilly) Kerala, India.

Dr. Kalpana Chauhan

Professor, Department of Electrical Engineering, IIT Roorkee, (Uttarakhand) India.

Dr. K.Vijaya Kumar

Professor, Department of Library and Information Science, Annamalai University, (Chidambaram) Tamil Nadu, India.

Dr. Ravi K N

Professor, Department of High voltage Engineering, Indian Institute of Science, (Bengaluru) Karnataka, India.

Dr. Pabitra Kumar Biswas

Professor, Department of Electrical Engineering, NIT Durgapur, (West Bengal) India.

Dr. Awari Mahesh Babu

Professor, Department of Civil Engineering, JNTUH Hyderabad, (Telangana) India.

Dr. Qutubuddin S.M.

Professor, Department of Mechanical Engineering, JNTU Hyderabad, (Telangana) India.

Dr. G Komarasamy

Professor, Department of Computer Science and Engineering, Anna University, (Chennai) Tamil Nadu, India.

Dr. Krupal Prabahakar Pawar

Professor, Department of Mechanical Engineering, Sri Satya Sai University of Technology and Medical Sciences, (Madhya Pradesh) India.

Dr. Shasanka Sekhar Rout

Professor, Department of Electronics & Telecommunication Engineering, Veer Surendra Sai University of Technology, (Burla) Odisha, India.

Dr. Dipti Chauhan

Professor, Department of Computer Applications, Maulana Azad National Institute of Technology, Bhopal (M.P) India.

Dr. Hakim S. Sultan Aljibori

Professor, Department of Mechanical Engineering, University of Warith Alanbiyaa, Iraq

Dr. Suneev Anil Bansal

Professor, Department of Mechanical Engineering, Maharaja Agrasen University, Baddi (HP), India.

Dr. Ujwal Lanjewar

Professor, Department of Computer Science and Engineering, Rashtrasant Tukadoji Maharaj Nagpur University, Nagpur (Maharashtra), India.

Dr. J. Prakash Arul Jose

Professor and Head, Department of Civil Engineering, Noorul Islam Centre for Higher Education, Kanyakumari (Tamilnadu), India.

Dr. P. Sreenivasulu Reddy

Professor, Department of English language and Literature, Sri Venkateswara University, Tirupati (Andhra Pradesh), India.

Dr. P. Harish N.

Professor, Department of Economics, Tumkur University, Tumakuru (Karnataka), India.

Dr. S. Saranya

Professor, Department of Computer Science and Engineering, Bharathidasan University, Tiruchirappalli (Tamil Nadu), India.

Dr. T. Muthumanickam

Professor, Department of Electronics and Communication Engineering, Vinayaka Mission's Research Foundation, Salem (Tamil Nadu), India.

Dr. Vairavel

Professor, Department of Mechanical Engineering, VELS UNIVERSITY, Pallavaram, Chennai (Tamil Nadu), India.

Dr. Kolla Bhanu Prakash

Professor, Department of Computer Science and Engineering, Sathyabama university, Chennai (Tamil Nadu), India.

Dr. Mallapuram Bala Chennaiah

Professor, Department of Mechanical Engineering, Jawaharlal Nehru Technological University Anantapuramu (Andhra Pradesh), India.

Dr. Yellamma Pachipala

Professor, Department of Computer Science and Engineering, Bharathiar University, Coimbatore (Tamil Nadu), India.

Dr. Neeta Saxena

Professor, Department of Applied Mathematics, Amity University, Gwalior (Madhya Pradesh), India.

Dr. G. Mallesh

Professor, Department of Mechanical Engineering, Visvesvaraya Technological University, Belagavi (Karnataka), India.

Dr. Sandeep Chaware

Professor, Department of Computer Science and Engineering, NMIMS, Vile Parle(West), Mumbai (Maharashtra), India.

Dr. A Sri vani

Professor, Department of Physics, Rayalseema University, Kurnool (AP), India.

Dr. Murali Muniraj

Professor, Department of Electrical and Electronics Engineering, Sona College of Technology, Salem (Tamil Nadu), India.

Dr. T S Nanjundeswaraswamy

Associate Professor, Department of Mechanical Engineering, JSS Academy of Technical Education, Bangalore (Karnataka), India.

Dr. B S Santhosh

Professor, Department of Civil Engineering, Visvesvaraya Technological University, Belagavi (Karnataka), India.

Dr. A. Sulthan Mohideen

Professor, Department of Commerce, Hajee karutha Rowther Howdia College, Uthamapalayam, Theni District, Uthamapalayam (Tamil Nadu), India.

Dr. Vaibhav R. Bhedi

Professor, Department of Computer Science and Engineering, Sant Gadge Baba Amravati Univeristy, Amravati (Maharashtra), India.

Dr. Ayad Hameed Mousa

Professor, Department of Computer Science and Engineering, University Utara Malaysia, Changlun, Malaysia.

Dr. M Chrispin Das

Professor, Department of Mechanical Engineering, Anna University, Chennai (Tamil Nadu), India.

Dr. Kammara Bharath Kumar

Professor, Department of Electronics and Communication Engineering, Pondicherry University, Pondicherry (Andhra Pradesh), India.

Dr. Manjunatha N

Professor, Department of Mathematics, Bharathiar University, Coimbatore (Tamil Nadu), India.

Dr. M. Ramajayam

Assistant Professor, Department of General & Adapted Physical Education and Yoga, Periyanaickenpalayam, Coimbatore (Tamil Nadu), India.

Dr. Mohammad Arshad

Professor, Department of Computer Science and Engineering, Koneru Lakshmaiah University, Guntur (Andhra Pradesh), India.

Dr. Maidul Islam

Professor, Department of Management Information Systems, Ajou University, Suwon, South Korea.

Dr. Arup Kumar Hazarika

Professor, Department of Zoology, Cotton University, Panbazar, Guwahati (Assam), India.

Dr. P Venkata Subbareddy

Professor, Department of Computer Science and Engineering, Annamalai University (Tamil Nadu), India.

Dr. Muttipati Appala Srinivasu

Professor, Department of Computer Science and Engineering, Gitam Deemed To Be University, Gandhi Nagar, Rushikonda Visakhapatnam (Andhra Pradesh), India.

Dr. Namita Gupta

Professor, Department of Economics, MG Kashi Vidyapeeth, Varanasi (Uttar Pradesh), India.

Dr. Chandan Medatwal

Professor, Department of Management, University Of Kota, MBS Marg, Kota (Rajasthan), India.

Dr. Narasimhan D

Professor, Department of Mathematics, Srinivasa Ramanujan Centre Sastra Deemed University Kumbakonam (Tamil Nadu), India.

Dr. Yuriy Pyvovar

Professor, Department of Constitutional and Administrative Law, National Aviation University, Kiev, Ukraine.

Dr. Asim K. Mandal

Professor, Department of Agriculture, Bidhan Chandra Krishi Viswavidyalaya (BCKV), Mohanpur, Nadia (West Bengal), India.

Dr. Lokesh P Gagnani

Professor, Department of Computer Science and Engineering, C U Shah University, Nr. Kothariya Village, Dist. Surendranagar, Wadhwan (Gujarat), India.

Dr. Trilochan Jena

Professor, Department of Civil Engineering, Siksha O Anusandhan (Deemed to be University), ITER, Bhubaneswar (Odisha), India.

Dr. S. Ismail Kalilulah

Professor, Department of Computer Science and Engineering, St. Peter's Engineering College, Avadi, Chennai (Tamil Nadu), India.

Dr. S Vijayakumar

Professor, Department of Computer Science and Engineering, Vellore Institute of Technology, Vellore (Tamil Nadu), India.

Dr. Serhii Kozlovskyi

Professor, Department of Economics, Vasyl' Stus Donetsk National University, Vinnytsia, Ukraine.

Dr. V. Jaiganesh

Professor, Department of Mechanical Engineering, Anna University Chennai (Tamil Nadu), India.

Dr. Mohankumar Namdeorao Bajad

Professor, Department of Civil Engineering, Sardar Vallabhbhai National Institute of Technology, Surat (Gujarat), India.

Dr. G. Purushotham

Professor, Department of Mechanical Engineering Sciences, Visvesvaraya Technological University, Belagavi (Karnataka), India.

Dr. Rajendiran Muthusamy

Professor, Department of Computer Science and Engineering, Sathyabama University, Chennai (Tamil Nadu), India.

Dr. S Madhava Reddy

Professor, Department of Mechanical Engineering, Osmania University, Hyderabad (Telangana), India.

Dr. Siddhartha Choubey

Professor, Department of Computer Science and Engineering, MATS University, Aarang, Raipur (Chhattisgarh), India.

Dr. Ebissa

Professor, Department of Civil Engineering, IIT Roorkee, Roorkee (Uttarakhand), India.

Dr. R. Dhanasekaran

Professor, Department of Mechanical Engineering, Anna University, Chennai (Tamil Nadu), India.

Dr. Kajal Chaudhary

Professor, Department of Commerce, Chaudhary Charan Singh University, Meerut (Uttar Pradesh), India.

Dr. Sivasankari

Assistant Professor, Department of Chemistry, Cauvery College for Women, Tiruchirappalli (Tamil Nadu), India.

Dr. Jay Kumar Jain

Associate Professor, Department of Information Technology, Sagar Institute of Research & Technology, Bhopal (M.P), India.

Dr. Brijesh Gangil

Assistant Professor, Department of Mechanical Engineering, HNB Garhwal University (A Central University), Srinagar (Uttarakhand), India.

Dr. Sabyasachi Pramanik

Assistant Professor, Department of Computer Science and Engineering, Haldia Institute of Technology, Haldia (West Bengal), India.

Dr. M.L. Pavan Kishore

Senior Assistant Professor, Department of Mechanical Engineering, The ICFAI Foundation for Higher Education, Hyderabad (Telangana), India.

Dr. H S Prasantha

Professor, Department of Electronics & Communication Engineering, Nitte Meenakshi Institute of Technology, Bangalore (Karnataka), India.

Dr. Venkaiah Babu Prathipati

Associate Professor & HOD, Department of MBA, Eswar College of Engineering, Narasaraopet (Andhra Pradesh), India.

Dr. S. Gomathi

Assistant Professor, Department of Information Technology, Bharathiar University (Tamil Nadu), India.

Dr. Diwakar Ramanuj Tripathi

Information Technology Consultant, Department of Information Technology, Drtcomptech Group, Nagpur (Maharashtra), India.

Dr. K. P. Sanal Kumar

Assistant Professor, Department of Computer Science, R. V. Government Arts College, Chengalpattu (Tamil Nadu), India.

Dr. Rubini P

Associate Professor, Department of Computer Science and Engineering, CMR University Main Campus, Bangalore (Karnataka), India.

Dr. Bhavana Narain

Associate Professor, Department of Information Technology, MATS University Raipur (Chhattisgarh), India.

Dr. P. Periasamy

Associate Professor, Department of MBA Finance, CMS B School, Jain Deemed to be University, Bengaluru (Karnataka), India.

Dr. Mohan Seelam

Assistant Professor, Department of Chemistry, Bapatla Engineering College, Bapatla, (Andhra Pradesh), India.

Dr. M. Azhagiri

Assistant Professor, Department of Computer Science and Engineering, SRM Institute of Science and Technology, Chennai (Tamil Nadu), India.

Dr. Bhagya R

Associate Professor, Department of Telecommunication Engineering, RV College of Engineering, Bengaluru (Karnataka), India.

Dr. Poppathi Naresh

Assistant Professor, Department of Mechanical, Gates Institute of Technology, Ramarajupalle (Andhra Pradesh), India.

Dr. Bhuvana Suganthi D

Associate Professor, Department of Electronics and Communication Engineering, BNM Institute of Technology, Bengaluru (Karnataka), India.

Dr. D. Sai Chaitanya Kishore

Associate Professor & HOD, Department of Mechanical Engineering, Srinivasa Ramanujan Institute of Technology, Chedulla (Andhra Pradesh), India.

Dr. Malabika Adak

Assistant Professor, Department of Applied Mathematics and Humanities, Yeshwantrao Chavan College of Engineering, Nagpur (Maharashtra), India.

Dr. Owais Yousuf

Dr. K. Bhargavi

Professor and Dean Research, Department of Computer Science and Engineering, Teegala Krishna Reddy Engineering College, Hyderabad (Telangana), India.

Dr. Sharadrao A. Vanalakar

Assistant Professor, Department of Physics, Karmveer Hire College, Gargoti (Maharashtra), India.

Dr. Saurabh Bajpai

Assistant Professor, Department of Commerce and Business Management, Integral University, Lucknow (U.P.), India.

IT Governance Improvement at Communication and Information Office using COBIT 5

Evita Negara Putri, I Made Sukarsa, Anak Agung Ngurah Hary Susila

Abstract: Application of information technology in government institution, including the departments where this case study was conducted, is an attempt to improve the transparency and quality of internal and external services. The employment of information technology aims to support the vision, mission and goals of the organization with good governance. Good governance management requires an audit to determine if the organization's performance is in accordance with the designated goals, vision and mission. The audit procedure performed by COBIT 5 which starts with identifying the work indicators listed in the Regional Medium-Term Development Plan (RMDP), identification of business objectives, identification of IT objectives, IT processes, data collection through questionnaires. Results of audit, showed that the capability level of five IT processes were within low value level, namely APO04 at level 1, APO07 at level 1, BAI01 at level 2, APO08 at level 2, and EDM05 at level 1. These results were indicating a presence of GAPs between expected organizational achievements and the current situation. By employing several best practice standards, this audit established several recommendations to improve maturity level including alignment between business objectives and IT objectives as well as IT processes.

Keywords: Audit, IT Governance, Information Technology, COBIT 5

I. INTRODUCTION

The advancement of information technology is currently growing rapidly and affects all aspects of today's lifestyle. The use of technology is also applied in companies or organizations as one of the assets that can be relied upon to achieve the vision, mission and goals of the organization [1]. The Office of Communication, Information and Statistics is one of the institutions that employ information technology to improve government performance towards *good governance* with good IT governance. IT governance is a process that links structures and processes within organizations [2], [3]. IT governance includes leader responsibility to control IT implementation [4]. The objective of IT governance is to ensure that IT supports the organizational goals and strategies [5], [6].

Management of an Office of Communications, Informatics and Statistics in Indonesian municipalities towards *good governance* is supported by effective governance. Moreover, effective governance will then help the organization to achieve its mission and vision, and able to gives better public services by implementing e-government. Effective IT governance includes the conformity between IT investment and bussines priority to encourage transparency, accountability, dan timely decision making [7], [8], therefore IT governance audit is required to objectify good governance in Department of Communications, Informatics and Statistics in Indonesian municipalities. Evaluation includes ogranizational objectives and listed on the work plan. The work plan consists of organizational programs to achieve objectives. Governance audit aims to determine the suitability levels between the designed information technology and the efficieny and efficacy of its implementation [9]. The framework employed in audit process was COBIT 5.

COBIT is published by ISACA to manage companies and organizations IT governance [10], [11], [12]. COBIT is a useful tool in addressing gaps in bussiness processes in companies of various size [13], [14], and assist auditor in idetifying control issues [15], [16]. COBIT 5 consists of five IT processes that support the achievement of organizational goals [17], [18]. COBIT 5 determines the gap between current and expected maturity [19], [20], [21]. Therefore the presence of governance audits may be employed as a benchmark for service achievement by understanding the capability level and providing governance improvement recommendations that may be employed as a starting point of improvement efforts and actualize Communication, Informatics and Statistics Office's good and quality governance.

II. METHODOLOGY

Research methodology is a predetermined step in conducting research. The stages of the audit process conducted at the Office of Communication, Informatics and Statistics framework are presented in Fig.1.

Revised Manuscript Received on May 06, 2020.

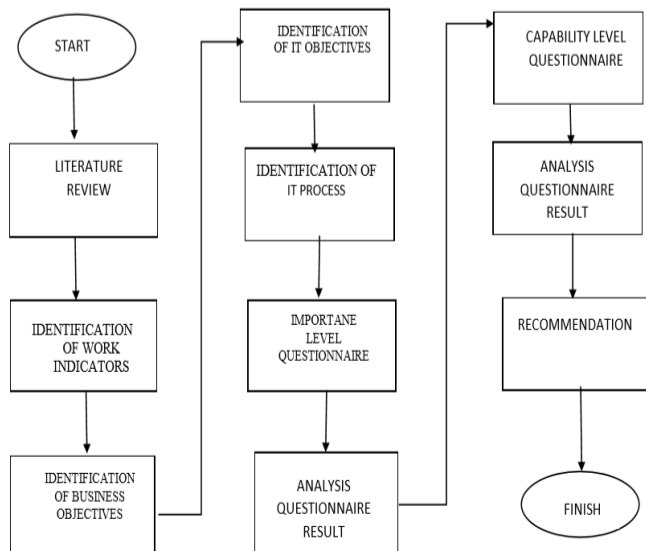

Fig. 1. Stage of Audit Process

Fig.1 is a flowchart of the audit research phase aims to determine the capability level of a Communication, Informatics and Statistics Office in Indonesian municipality. The initial audit process was literature study through scientific journals and literatures. The second step was work indicators identification. Work indicators are the scope of evaluation investigated in audit research. Work indicators were derived from organizational vision and mission. Vision and missions define long term comprehensive company purpose. Audit research employed a vision and mission derivative namely the Regional Medium-Term Development Plan (RMDP) as an audit process. This was decided by considering that medium-term development plan depict organizational goals based on priority scale in five-years timeline, therefore the audit scope of certain vision and mission could be narrowed down.

The subsequent step was domain determination including the mapping of business objectives identification, IT objectives identification, dan IT processes identification based on COBIT 5 guideline. Business objectives identification was a mapping of the working indicators with the business objectives owned by the COBIT 5. IT objectives identification was a mapping of the business objectives with IT objectives. IT processes was a mapping of the IT objectives with IT processes that are in line with work indicators. The last step was importance level determination by importance level questionnaire. The importance level questionnaire analysis results were employed as maturity level determination process to determine capability level and GAP, as a reference to establish.

III. RESULT AND ANALYSIS

Results and Discussion are detailed descriptions of study results conducted at a Municipal Communication, Informatics and Statistics Office in Indonesia.

A. Identification of Work Indicators

Work indicators were evaluation scope evaluated in the audit research. Work indicators are derived from organizational vision and missions. The organizational vision

and missions were established as a company guideline to achieve goals. The current study obtained work indicators through vision and missions implementation documentation as listed on Regional Medium-Term Development Plan (RMDP). Work indicators evaluated in the current study are presented on Table 1.

Table- 1: Work Indicators

No	Work Indicators
1	Percentage of Office Administration Service compliance
2	Percentage staffs' facilities and infrastructure requirement compliancet
3	Percentage of staffs attending technical leadership program
4	Percentage of public opinion on public services performance on official websites.
5	Percentage of online public complaints followed up by regional organizations in timely manner
6	Percentage of integrated Public Service Applications or Information Systems
7	Percentage of Communication, Informatics Technology service coverage escalation
8	Number of Information Systems Innovations in public services
9	Percentage of public informatics services through media collaboration escalation
10	Availability of regional data and information within the Government body.

Table 1 presents a description of the work indicators listed in the 2016-2021 RMDP. The table contains 10 work indicators. Work indicators are mapped with business objectives therefore IT processes were in accordance with the current organizational condition.

B. Identification of Business Objectives

The identification of business objectives was an audit stage conducted through Communication, Informatics and Statistics Office work indicators mapping with business objectives listed on the COBIT 5 framework. The results of the mapping between work indicators and business objectives according to COBIT 5 are presented on on Table 2.

Table- 2: Business Goals Mapping Result

No	Work Indicators	Business Objectives	
1	Percentage of Office Administration Service compliance	11	Optimisation of business process functionality
2	Percentage staffs' facilities and infrastructure requirement compliance	11	Optimisation of business process functionality
3	Percentage of staffs attending technical leadership program	16	Skilled and motivated people
4	Percentage of public opinion on public services performance on official websites	6	Customer oriented service culture
5	Percentage of online public complaints followed up by regional organizations in timely manner	6	Customer oriented service culture
6	Percentage of integrated Public Service Applications or Information Systems	13	Managed business change programmes
7	Percentage of Communication, Informatics Technology service coverage escalation	17	Product and business innovation culture

8	Number of Information Systems Innovations in public services	17	Product and business innovation culture
9	Percentage of public informatics services through media collaboration escalation	11	Optimisation of business process functionality
10	Availability of regional data and information within the Government body.	11	Optimisation of business process functionality

Table 2 presents the results of work indicators to business objectives mapping. The mapping results were based on 10 work indicators with 17 business objectives mapping which were divided into four perspectives and selected based on its compatibility with work indicators on business processes. The results of work indicators with business objectives mapping produce 5 business objectives based on COBIT 5.

C. Identification of IT Objectives

The identification of IT objectives was a stage in the IT process by implementing the business objectives mapping results obtained with IT objectives. The process of business objectives with IT objectives mapping aims to determine the business requirements of IT availability.

Table- 3: Business Goals Mapping Result

No.	Business Objectives	No.	IT objectives
6	Customer oriented service culture	1	Adjustment between IT and business strategy
		7	Give IT services based on the business' needs
11	Optimisation of business process functionality	1	Adjustment between IT and business strategy
		7	Give IT services based on the business' needs
		8	A satisfaction in using an application, information, and technology solution.
13	Managed business change programmes	1	Adjustment between IT and business strategy
		13	Promote a program that gives advantages, on the right time, based on the budget allotment, and accordance with the requirements and quality standard
16	Skilled and motivated people	16	Promote IT staffs who are competence and have motivation in business
17	Product and business innovation culture	9	Dexterity in IT
		17	Have knowledge, skills, and initiative to be innovated in running a business to create an opportunity

Table 3 presents the results of business objectives mapping to IT objectives. The results of work indicators with business objectives mapping produced four business objectives, namely business objectives number 6, number 11, number 13, number 16 and number 17. The obtained business objectives were subsequently mapped with IT objectives, therefore establish IT objectives related to organizational requirements. Business goal number 6 equivalent with IT objectives 1 and 7. Business objective number 11 equivalent to IT objectives 1, 7, and 8. Business objective number 13 equivalent to IT objectives 1 and 13. Business objective number 16 equivalent to IT objectives 16 and business objective number 17 equivalent to IT objectives 9 and 17.

D. IT Processes Identification

The identification of IT processes was a step performed after establishing the organizational IT objectives. This

identification includes a mapping of IT objectives with IT processes that are in line with work indicators. The COBIT 5 Framework is equipped by mapping between IT objectives and interrelated IT processes.

Table- 4: IT Process Mapping Result

No	Domain	IT objectives	Work Indicators
1	EDM 02	Ensure Risk Optimisation	Percentage of Office Administration Service compliance
2	BAI 04	Manage availability and capacity	Percentage staffs' facilities and infrastructure requirement compliance
3	APO 07	Manage human resource	Percentage of staffs attending technical leadership program
4	DSS 03	Manage problems	Percentage of public opinion on public services performance on official websites.
5	APO 11	Manage quality	Percentage of online public complaints followed up by regional organizations in timely manner
6	BAI 01	Manage programmers and projects	Percentage of integrated Public Service Applications or Information Systems
7	APO 09	Manage service agreements	Percentage of increase in coverage of Information Technology infrastructure services capacity.
8	APO 04	Manage innovation	Percentage of Communication, Informatics Technology service coverage escalation
9	APO 08	Manage relationship	Percentage of public informatics services through media collaboration escalation
10	EDM 05	Ensure Stakeholder transparency	Availability of regional data and information within the Government body.

Table 4 is a description of IT process re-mapping with work indicators at the Office of Communication, Informatics and Statistics. The mapping process aims to limit and produce IT processes that are correlated with work indicators.

E. Determination of Importance Level

Determination of Importance level was the stage of audit process conducted by distributing questionnaires to respondents who hold responsibility for certain work indicators in a Communication, Informatics Office of Denpasar, Indonesia.

No	Question	VI	I	IE	U	VU
1	The fulfilment of office administration services in the Office, so it can run effectively and efficiently.					
2	The fulfilment of employee infrastructure facilities in the Office.					
3	Most employees have attended training so that they have received certification, such as staffing training.					
4	Public opinion on the performance of government public services on the website					
5	Online complaints service process that is followed up on time through web or mobile services with 2x 24 hours.					
6	Improvement of public informatics services through media collaboration in order to realize the ease of accessing public information.					
7	Availability of regional data and information that can be accessed by the general public through the Bank Data					
8	Availability of an integrated public service application or information system.					
9	Increased coverage of IT infrastructure service capacity that supports public services such as the existence of fibre optic in the area of public services.					
10	An increasing number of public service information systems innovation in order to provide convenience in society.					

Fig. 2. Stage of Audit Process

Fig.2 is an importance questionnaire design consists of 10 questions. The importance level questionnaire has 5 levels including very unimportant, unimportant, important enough, important, and very important. The questionnaire produced the 5 highest IT process domains. The results of determining the highest IT process domain are presented in Table 5.

Table- 5: Domain Calculation

Domain		
APO 04	Manage innovation	Number of Information Systems Innovations in public services
APO 07	Manage human resource	Percentage of staffs attending technical leadership program
BAI 01	Manage programmers and projects	Percentage of integrated Public Service Applications or Information Systems
APO 08	Manage relationship	Percentage of public informatics services through media collaboration escalation
EDM 05	Ensure Stakeholder transparency	Availability of regional data and information within the Government body.

The domains were 5 domains with the highest value based on the calculation of importance. The domains were obtained based on the alignment of critical points with business objectives, business objectives with IT objectives, IT objectives with IT processes and the results of the questionnaire of importance so as to produce a domain that will be employed at the later stage.

F. Determination of Capability Level

Determination of capability level is conducted by delivering questionnaires based on 5 selected domains in the level of importance process. The questionnaire was designed and adjusted with the constitutions' condition.

Table- 6: Capability Level Determination

No	Level	APO 07 Manage human resource. Technical training is necessary for staffs in order to improve skills and competence	Value (0-100)
1	1.1	a. Staffs role and responsibility in accordance with organizational structure of Communication, Informatics and Statistics Office b. Staffs possess the required skills and competence to achieve Communication, Informatics and Statistics Office objectives c. Staffs performance reviewed and evaluated periodically to achieve company objectives	

Table 6 is a model of APO07 capability level questionnaire referring to the PAM document using COBIT 5 Toolkit. The questionnaire consists of 5 levels, namely level 1 to level 5. Each level on the questionnaire contains explanations and characteristics so as to facilitate respondents in determining the appropriate answer to each level.

G. GAP

GAP is discrepancy value, defined as the difference between the current capability and expected capability. The GAP results are presented in table 7.

Table- 7: GAP Capability Level

Domain	Current Capability	Expected Capability	GAP
APO 04	1	5	4
APO 07	1	5	4
BAI 01	2	5	3
APO 08	2	5	3
EDM 05	1	5	4

Table 7 shows the target capability at the Office of Communications, Informatics, and Statistics. Current Capability is the current maturity value which is assessed based on a maturity questionnaire with COBIT 5 guidelines. Expected capability is a target capability levels expected by the related Office and GAP is the discrepancy value of current capability and expected capability. Spider chart gap capability level of an Office of Communications, Informatics and Statistics at a municipality in Indonesia as follows.

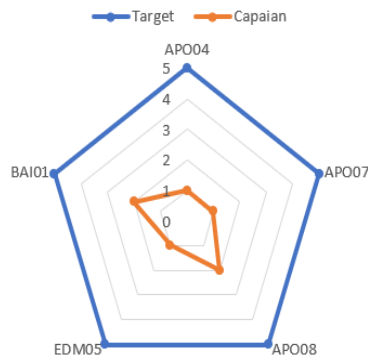

Fig. 3. Stage of Audit Process

The spider chart that addresses the gap capability level at the Communication, Informatics and Statistics Office. Evaluation of the measurement of IT governance capabilities using the COBIT 5 framework with domains APO04, APO07, BAI01, APO08 and EDM05. The blue line on the chart refers to the target to be achieved by the Communication, Informatics and Statistics Office, while the orange line shows the measured current performance conditions. The evaluation results showed that the APO 04 domain that is processing innovation, currently at level 1 with GAP capability of 4. APO07 that is processing resources was at level 1 with GAP capability of 4. The BAI01 domain related to managing programs was at level 2. The APO08 process was at level 2 with GAP of 3 and the EDM05 process was at level 1 with GAP 4. Based on the results, recommendations for resolving GAP discrepancy were adjusted to the PAM standard using COBIT 5 Toolkit-COBIT 5 Self Assessment Templates and recommendations from COSO Internal Control Framework and ITIL as additional recommendation and improvements. Improving the level of each process is performed per stage to achieve structured achievements. The following are recommendations for improving each process.

Table- 8: Recommendation for BAI02

No	Level BAI01 Existing Condition Achievements
a	<p>Explanation</p> <p>The Communication, Informatics and Statistics Office has not perform an identification of integrated public services application performance objectives</p>
	<p>Management Recommendations</p> <p>Develop a roadmap for each integrated public service application so that the results of development employ targeted technology. (COBIT 5 Enabling Process)</p> <p>Document the definition and description of services for each service with all relevant parties so that objectives are clearly defined. (ITIL-Service Design, p.103)</p>
b	<p>Explanation</p> <p>The resources and information needed to carry out the process of managing integrated public service applications have not yet been identified, available, and employed optimally.</p>
	<p>Management Recommendations</p> <p>Establish IT skills matrix to identify the roles of staff based on skills and roles so that they support the management of integrated public service applications. (COBIT 5 Enabling Process)</p> <p>It is necessary to apply the Skills Framework for the Information Age as a reference for managing the skills and competencies of staff and planning for future skills needs related to IT. (ITIL-Service Design, p.270)</p>

Operational Recommendations	Conducting scheduled training related to IT for staff to improve competence and professionalism. (ITIL-Service Design, p.270)
-----------------------------	---

Table 8 is an improvement recommendation for level 2 performance improvement from BAI01 to meet the target and level up to level 3.

Table- 9: Recommendation for APO07

No	Existing Level 1 APO07 Conditions Achievements
a	<p>Explanation</p> <p>The skills and abilities possessed by employees are not yet optimal in accordance with the roles and tasks required to achieve the objectives of the Communication, Informatics and Statistics Office.</p>
	<p>Operational Recommendations</p> <p>A meeting is needed to evaluate the requirements regarding the recruitment of employees in order to achieve adequate human resources to support the goals of the organization based on applicable policies. (COBIT 5 Enabling Process)</p> <p>Develop a training program that is technical training that is scheduled, directed and evenly based on the requirements of the organization in each field to improve the quality of human resources. (COBIT 5 Enabling Process)</p>
	<p>Management Recommendations</p> <p>It is necessary to determine work size based on the goals and targets of the organization. (COSO Internal Control Framework, Establishes performance measures, incentives, and rewards)</p> <p>It is necessary to provide awards or rewards that support employee performance improvement. (COSO Internal Control Framework, Establishes performance measures, incentives, and rewards)</p>
b	<p>Explanation</p> <p>Employee performance is reviewed and evaluated periodically to achieve company goals.</p>
	<p>Management Recommendations</p> <p>It is necessary to perform a review and monitoring to understand the achievement of work targets reflects the achievement of organizational goals. (COBIT 5 Enabling Process,)</p>
	<p>Operational Recommendations</p> <p>Establish a team to conduct a performance evaluation after a technical trainin is held to facilitate the competency evaluation process and overcome employee performance gaps. (COSO Internal Control Framework, Evaluates competence and addresses shortcomings)</p>

Table 9. is an improvement recommendation to improve level 1 performance from APO07 to meet targets and level up to level 2.

Table- 10: Recommendation for APO08

No	Existing Level 2 APO08 Conditions Achievements
a	<p>Explanation</p> <p>Communication, Informatics and Statistic Office has not determined through requirements in the process of media collaboration to archieve outputs that result from employment of social media</p>

	Management Recommendations	It is necessary to identify technological trends that are applied to society at the current era, therefore the employment of technology as media cooperation is accurate and supports the connecting process between the community and the institution. (COBIT 5 Enabling Process)
	Operational Recommendations	It is necessary to conduct a collaboration through communication to the communities in the process of IT service initiatives planning to ensure harmony and in accordance with community needs through online media. (COBIT 5 Enabling Process)
		It is necessary to establish a special team in identifying profiles of service users, namely the community, by analyzing service usage patterns, therefore the services provided are easily received from various types of users. (ITIL-Service Strategy, p.245)
b	Explanation	Monitoring and measurement of media collaboration so as to document the extent to which the performance of Denpasar City public media collaboration has not been performed optimally
	Operational Recommendations	Gives the opportunity to submit suggestions and complaints to the community through social media posts by suggestions and complaints content of Denpasar City every weekend.
		Conduct regular online community satisfaction surveys regarding the use of social media as a means of communication and information dissemination in Denpasar City. (ITIL-Service Design, p.117)
	Management Recommendations	Develop key performance indicators to facilitate the institution's social media programs success evaluation based on the agreed objectives (ITIL-Service Design, p.117)

Table 10 is a recommendation for improvement to improve level 2 performance of APO08 to meet targets and level up to level 3.

Table- 11: Recommendation for APO04

No	Milestone Existing Level 1 APO04 Conditions	
a	Explanation	The Communication and Information Agency has not fully realized the value of the organization through qualifications and mapping the progress of innovation and the most appropriate technology as IT solutions.
	Operational Recommendations	Providing infrastructure or a forum for cross-functional that is creating discussion programs from different fields to exchange ideas. (COBIT 5 Enabling Process)
		Form a team to analysis of opportunities that occur in the community so as to produce a new innovation idea. (COBIT 5 Enabling Process)
	Management Recommendations	Create a conducive work environment and provide opportunities for staff to brainstorm so as to produce creative ideas. (COBIT 5 Enabling Process)
		Need to provide feedback or

		appreciation to staff so that they are more motivated to come up with ideas. (COSO, Evaluates performance and rewards or disciplines individuals)
--	--	---

Table 11 is an improvement recommendation for improving level 1 performance from APO04 to meet targets and level up to level 2.

Table- 12: Recommendation for EDM05

No	Level 1 EDM05 Existing Condition Achievements	
a	Explanation	Data Bank employment to bridge information dissemination that corresponds the society needs
	Operational Recommendations	Form and direct a communication strategy between the relevant regional staff organizations, in order to provide accurate information to the community. (COBIT 5 Enabling Process)
	Management Recommendations	Scheduled information reporting mechanisms is necessary in order to provide information in a timely manner. (COBIT 5 Enabling Process)
	Operational Recommendations	Design a mobile application to provide convenient access. (COBIT 5 Enabling Process)
		Evaluation meeting to assess the effectiveness of the accuracy and reliability of information provided at Denpasar Geoportal or Data Bank. (COSO, Considers a mix of ongoing and separate evaluations)
		Evaluating application performance through surveys available on the web to determine community satisfaction to the provided service. This may be employed as a reference for improvement. (ITIL-Service Design, p.117)

Table 12 presents improvement recommendations to improve level 1 of EDM05 performance to meet targets and level up to level 2.

IV. CONCLUSION

The conclusions obtained through the research is the audit aims to find out the organization's performance based on its goals. The audit process at the agency where the case study was conducted by identifying the work indicators listed in the Regional Medium-Term Development Plan (RMDP), identification of business objectives, identification of IT objectives, IT processes, data collection through interest level questionnaires and capability level questionnaires. The results of the audit activities by employing the COBIT 5 framework resulted in 5 IT processes at the lowest level based on the capability level questionnaires calculation, namely APO04 at level 1 with GAP capability 4, APO07 at level 1 with GAP capability 4, EDM05 at level 1 with GAP capability 4, BAI01 at level 2 with GAP capability 3, and APO08 at level 2 with GAP capability 3. These results indicate gaps between the expected goals and the current achievements, therefore several recommendations have been established to improve levels in respective process based on several best practice standards, both for operational and managerial levels.
